The most common fingering appears first when two fingerings are shown.

## Instrument Care Reminders

Before putting your instrument back in its case after playing, do the following:

- Carefully shake the water out of the head joint.
- Put a clean soft cloth on the end of your cleaning rod.
- Draw the cleaning cloth and rod through the middle and foot joints.
- Carefully wipe the outside of each section to keep the finish clean. Don't try to polish between the keys. Let a repair specialist do this for you when needed.
